## World's first 1:1.8 fisheye!*

Expand your creative options with the new M.ZUIKO DIGITAL ED 8mm 1:1.8 Fisheye PRO lens the world's first of its kind*. Explore a new variety of fields or capture photographic expressions of everyday life as never seen before. The minimum focusing distance of 2,5 cm from the front of the lens and and the small aperture let you add a new look to your macro shots. Captivating portraits, unbelievable starscapes, fascinating city lights and more are made possible with this fisheye lens. Even pro photographers are wowed by the superb spot performance from the centre of the image to its edges, with virtually no light fall off. The robust construction means you can brave any weather to capture nature also at super close up thanks to powerful macro capability.
